

**Themed Learning:** Our topic this term is Egypt. We will look in depth about the achievements of this ancient civilisation. We will learn about how and where the ancient Egyptians lived, what was important to the daily lives of ancient Egyptians, who Tutankhamun was and how mummies were made. We will also learn about how Egyptian people used hieroglyphs to communicate and compare the powers of different gods.

**English:**

This term, we are learning different forms of non fiction writing. We will be focussing on newspapers, diary entries and persuasive writing. We will explore the key features of these different forms of non fiction developing their sentence structure, using past tense correctly and using formal and informal writing styles correctly. This will all be linked to our topic this term.

**Maths:** During this term, we will be focusing on measures and geometry. We will be measuring, comparing, adding and subtracting lengths, mass and volume whilst using 2D shapes to understand and measure perimeter. We will start to tell and write the time from an analogue clock including using Roman numerals, 12-hour and 24-hour clocks. In geometry we will be drawing 2D shapes, constructing 3D shapes, recognising angles and identifying horizontal, vertical, perpendicular and parallel lines.

**Science (Plants):** We will learn the names of different parts of plants, and the jobs they do. We will work scientifically and collaboratively to investigate what plants need to grow well, and will present our findings to our classmates. Furthermore, we will have chance to predict what will happen in an exciting investigation into the transportation of water within plants. We will work in a hands-on way to identify the parts of a flower, and will explore the different stages of the life cycle of a flowering plant.

# CURRICULUM NEWS

## YEAR 3

### Summer 1 2019

**Physical Development:**

During our outside sessions this term we will be focusing on the skills needed to compete in games. This will allow us to develop our throwing and catching skills that we have been working on in previous terms. We will also be working with our buddy in the opposite class.

**Art and Design Technology:**

The children will use a variety of printing methods to create Egyptian inspired patterns and jewellery.

**Computing:**

**Religious Education:** This term, we will focus on how we can make a difference in our world today. We will look at children in need, red crescent, red cross, Christian aid and the five pillars.
